

Delivery of goods is carried out under the scheme of multimodal transport: by **road, rail, sea** or **air** transport. Multimodal transport - a transport of goods from door to door, by two or more modes of transport, is prepared and implemented under the unified leadership of the company ICF GROUP, which on its own behalf entered into agreements with cargo owners, transport operators and is fully responsible for the organization of the transport from beginning to end. In each case, managers of the company are developing the most effective logistics scheme of transportation of goods, including the transport of oversized cargo.

In the sphere of organization of multimodal schemes of cargo transportation MTR offers you:

- Sea container transportation (FCL).
- Arrangements for delivery of goods in small lots from any country in the world (LCL).
- Delivery of general, oversized and large, liquid, bulk and other goods.
- Terms of delivery from door to door, port-to-door, station-to-door.
- The most competitive rates.
- Optimal routes and delivery times.
- Control of cargo on the whole route.
- Insurance against all risks in a reliable insurance company.
- Prompt response to queries.
- Flexible client-policy relationship.
